

Chemical Dosing Equipment

5- SPARE PARTS AND ACCESSORIES

A-TANK

- Cylindrical vertical container with self-supporting structure, flat bottom and hatch with threaded cover. Made in non-toxic UV-stabilized polyethylene, for a higher protection from the atmospheric agents, with a neutral translucent colour.
- The structure is designed depending on the liquid it will contain. It has flat upper surfaces, and a 1/2" lower discharge that ease possible couplings.
- It is monolithic, i.e. moulded in a single piece, with no joints. It has a threaded vent lid, closed upon request, and printed visual level indicator. It can be placed on flat surfaces without particular precautions.

CODE	VOLUME	DIMENSIONS
	L	Ø x Height
ADTANK006	50	400 x 525
ADTANK010	100	500 x 680
ADTANK020	200	620 x 800
ADTANK030	300	770 x 890
ADTANK050	500	885 x 1000
ADTANK100	1000	1100 x 1200

A-VISC

- Cylindrical vertical container with self-supporting structure and flat bottom, suitable for the safety containing of the A-TANK tanks. It is made in non-toxic UV-stabilised polyethylene to provide a higher protection from atmospheric agents, with a neutral, translucent colour. It is monolithic, i.e. moulded in a single piece, with no joints. It can be placed on flat surfaces without particular precautions.

CODE	VOLUME	DIMENSIONS
	L	Ø x Height
ADVSIC010	100	700 x 450
ADVSIC020	200	800 x 600
ADVSIC030	300	900 x 660
ADVSIC050	500	1050 x 1000
ADVSIC100	1000	1350 x 1050
